

ST2010

MiFare OSDP cardreader without keypad

Overview

ST2010 is a MiFare OSDP card reader without keypad.

The card reader uses the open OSDP protocol for communication with the door controller.

ST2010 fits most door environments, even where space is limited, thanks to its slim design. Steplock ST2010 supports most common reading technologies within the MiFare standard. The product has been tested with MiFare Classic and MiFare DesFire EV1, EV2, and EV3.
